Dishes featuring our House Honey

# Keepers

KITCHEN & BAR

Keepers urban honey is produced here,  
harvested from the hives of our family of 40,000  
bees housed high on our rooftop.

They harvest this nectar by collecting pollen from  
plants and gardens here in the Tower Hill  
area, having to work harder than their country  
cousins to find the perfect blend of flavour  
and scent to create our very own House Honey.

Cared for and gathered by our in-house keeper,  
our unique honey is only ever served here  
from our kitchen specifically for your enjoyment.
